TEACHING AT DAIS

**“A school with an
International character
and Indian ethos.”**

**Nita M. Ambani
Founder and Chairperson**

Set in Majestic Mumbai

Celebrating teachers completing 5 and 10 years in School

We believe that education must be a progressive and an enlightening discovery that helps children unlock their inherent talents and potential through creative expression and a spirit of innovation. Education is more than just acquiring knowledge and developing skills. It is equally about enabling children to develop lasting values and strength of character, inspiring them to think critically, turn opportunities into accomplishments and contribute to the world around them as compassionate inspirations for others.

Our focus is to create an atmosphere of learning that children enjoy, and one that encourages them to discover and express their talents to the fullest. We are driven by the belief that every child is important and should be at the heart of every educational endeavour. This underpins all our efforts to inspire and enable each child to believe in and practise our motto, 'Dare to Dream...Learn to Excel'.

Teacher Professional Life and Training Opportunities

DAIS has a multi-faceted approach towards staff development with the use of a well-stocked learning centre, faculty sharing sessions, visiting consultants, electronic learning opportunities and sponsoring staff at various training programmes, workshops and conferences held in Mumbai, other locations within India and abroad.

Expat tenure in DAIS

We are a 13 year old school and have employed about 80 expats over the years. The data above shows the longevity in tenure of the expats teaching at DAIS.

Why Join DAIS?

DAIS is a dynamic, vibrant workplace where staff are highly valued and respected for the gifts and talents they bring to our school community. At DAIS you can be part of a great team of professionals who work hard every day to create a world-class school. Working at DAIS is an enriching, rewarding and an enjoyable experience for all because we treat everyone as part of the DAIS family.

With our facilities and resources, you will find an environment where you can succeed professionally and personally. Given our unique location in one of the world's most vibrant and historically rich cities, Mumbai provides something for everyone including the opportunity for Indian cultural immersion.

At DAIS you will experience the highest levels of support within our professional learning community. Our guiding principles of trust, empathy, professionalism, respect and team work allow everyone to thrive in their own way as part of a highly enriching team at DAIS.

Our Educator Attributes: DAIS educators exhibit a constant working understanding of the school's vision, mission, and core values in a balanced academic environment. Working collaboratively, we engage in active, inquiry based, and reflective teaching. Our educators foster positive relationships and promote a school culture of excellence and compassion.

Living in Mumbai: Often referred to as the "Gateway of India," Mumbai is a place that is characterized by color, energy and life. It is an extremely lively place to stay, where different people from various cultures, religions and economic backgrounds converge to carve a path for themselves in a city that has come to be known as "the city of dreams."

Both gritty and glamorous, Mumbai seems to embody the personality of current day India. From the hip and trendy cocktail bars and after-hours clubs in Bandra and Colaba, to the hawker stalls stocked with patties, puris, kebabs and lassis, there is something on offer for everyone and an experience that will live with you forever.

The potential for savings is immense in Mumbai. One can end up living a very good lifestyle at USD 1,200 per month if single and roughly USD 1,500 per month if living with spouse.

Swadeshi Residential Complex is a 6-tower society in Chunabhatti, near Sion. Facilities are generally very good, including a swimming pool, gym with sauna and Jacuzzi (open mornings and evenings six days per week), garden, and squash, badminton and tennis courts.

The apartments themselves are very spacious, consisting of two bedrooms, both with en-suite bathrooms, large lounge/dining room with balcony, kitchen, utility room and spare washroom. The apartments for expatriates have AC, and white goods (fridge, washer, dryer, microwave etc). Maintenance is regularly carried out on request; cleaning staff can be hired independently according to individual wishes.

A minibus for expatriates leaves for school at 7.30 every morning (roughly a twenty minute journey) and returns at 4.15 (roughly a half hour journey due to traffic; shorter if you opt to walk over the footbridge as a shortcut).

Weather in Mumbai

The spring and summer months can be hot with temperatures reaching as high as 104°F (40°C), only comfortable with air conditioners at all times . The winter months are considerably more comfortable with average daytime temperatures reaching 74°F (23°C) to 86°F (30°C), while July and August are the monsoon months. Temperatures are moderate and for those who would like to escape the cold winters, Mumbai is ideal.

Teacher Testimonials

Helene Harle,
French Teacher (France)

I started working at DAIS in July 2010 and it's been quite a journey. As a teacher on the "international trail", you are prepared for the big changes in your life that come with moving countries, changing jobs, getting acquainted with (yet another) new foreign culture. Well, at least you think you are... One of the aspects I appreciated, fairly early on at DAIS, is their endeavor to look after you and to support you settling in. This gave me a strong sense of security and belonging to a community of like-minded people. This caring attitude is also obvious in the day to day life of the school. Here at DAIS, you work with fellow educators who thrive to put the students' success and welfare above everything. This certainly is a great impetus to continue growing professionally, and to give your best every day, always. Finally, I am forever grateful to have had the opportunity to teach and interact with the amazing young minds here at DAIS. Our students have a real thirst for learning and a strong drive to succeed, every teacher's dream!

Helene Harle, French Teacher (France)

Daniel Ngatia,
Biology Teacher (Kenya)

My name is Daniel Ngatia an IGCSE/IB Biology Teacher. I have been at DAIS since July 2010. Teaching in DAIS is very rewarding, enriching and enjoyable; the students are wonderful, respectful and always ready to learn. The school community is great, very supportive and welcoming thus one always feels appreciated and wanted. Mumbai city is a very safe place to live, it has great cultural diversity with different communities living together in harmony. It has everything a contemporary city has to offer.
